## **DETAILED ACTION**

## Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 27,28 are rejected under 35 U.S.C. 101 because these claims are directed to non-statutory subject matter. These claims contain limitations which are directed to software per se. The virtual machine and the virtual machine monitor need to be in a memory. The virtual machine and the virtual machine monitor are software.

## Claim Objections

- 3. Claim 29 is objected to because of the following informalities: 'A machine accessible medium' should be 'A machine readable medium', as is stated in the specification. Appropriate correction is required.
- 4. Claims 30-41 are objected to for depending upon claim 29.

## Allowable Subject Matter

5. Claims 1-13,14-26 are allowed.
